WHY VOLUNTEER?

Volunteering can deliver a wealth of benefits including:

- A means of building self-esteem and/or confidence
- A great way to learn or develop skills and interests
- A pathway to enhance work experience
- Enhance your health and get active
- A way to meet new people or broaden your social circle
- As an expression your gratitude for help you may have received in the past
- An opportunity to support a cause you feel strongly about
- Making a real difference to your community.

At night when you go to sleep, and in the morning when you wake up, you know in your heart that—whatever evils and problems afflict this world—you are making it a better place. You are the reason we can all have faith in the human spirit.
