## Grandma's Joke is Now a Family Treasure

By CCGS member Patricia McKee Bauer

Many of the little boys, many years ago, were in dresses in pictures so it was difficult to tell the sex of the child from the photos. There was something about the way the hair was parted - the boys hair was usually parted in the middle which helped, too. However, the photo that was hanging for many years on my grandmother **Alice (Hardy) McKee's** wall was definitely of a little boy and a pretty little girl with long curls; a fancy bow in her hair; a lovely "dressy" dress; and button-up type shoes.

I often heard the story of this photo which Grandma treasured and which is now hanging on the wall in my home. Grandma was a tiny woman - just over five feet tall and about 98 pounds, "soaking wet," as it was called then. Her first child was my father, **Archie Leroy "Roy" McKee** born March 17, 1898. The birth of this 10-pound son was almost more that Grandma's little body could tolerate. But two years later she gave birth to their second son, **William George "Will" McKee**, a red-headed boy born June 4, 1900. Grandpa **George Elden McKee** wanted a daughter to complete their family so three years later they had their third and last child, another boy. **Leonard Elden McKee** was born June 4, 1903.

After Grandma recuperated from the birth of their third son, she borrowed a girl's pretty dress and shoes from a friend, and the fancy boy's suit possibly from the photographer. She combed her red-headed son's long hair into curls, after dressing him as a girl and putting the ribbon in his hair - the finishing touch. (It's too bad this photo couldn't have been in color!) The photographer took the photo of the two brothers - 5-year-old Roy and 3-year-old Will. The photo was covered with glass which has a brass chain attached as a frame & hanger. The background around the photo is dark red.

When the photo was all finished, Grandma presented it to Grandpa with the comment, "George - here's the girl you always wanted." That "girl" sufficed until they became my guardians after the death of my mom in 1934. I remember my Grandpa as a kind man. He died in 1938 when I was seven years old. I remember him fondly as the one responsible for my love of math to this day. I was playing Cribbage by the time I was in the second grade. in the little mountain valley town of Amboy, Washington. That game takes a lot of counting and adding figures in my head and it was thanks to him teaching me the game that I was able to play it since a young age.

Editor's Note: The Editor has two uncles who were dressed like a girl and knows boys were dressed in girls clothing – my uncle Euel wore a dress in a family photo and in another photo my uncle Dave had beautiful golden curls and was in a dress. Both were at least younger than four at the time of the photos and had older sisters.

## Celebrating 40 years of the Trail Breakers

About two years after the society was formed it was decided to do a quarterly, the fourth installment to be a surname index of the three previous issues. The group met at the Fort Vancouver Library Hall, with dues of \$3.00 a year.

The officers in 1975 were:

President: **Mrs. A. W. Zimmerman**

Vice-President: (empty)

Secretary: (empty)

Treasurer: **Mrs. Victor Dalquist**

Acting Editor: **Mrs. John Finley**

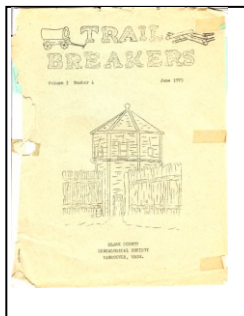

Printing: **Mrs. Rosco Porter**

Queries **Mrs. Carol Burger**

Old Newspapers: **Mrs. Peter Solheim**

Pedigree Charts: **Mrs. V. W. Jonas**

Mailing: **Mrs. J. Worthington.**

The first issue of the *Trail Breakers* was small, about 10 pages. The group had already recruited researchers and had started some series: 1850 Clark County Census, Names of Cemeteries in Clark County, Sketch of Present and Past

East Vancouver Methodist Church, Fisher's Cemetery Records, some Clark County History, and Clark County Land Claimants. The titles for articles were clever: Broken Trails for Queries, Wheel Spokes for Bible Records, Links to the Past for Pedigree Charts, Pioneer Acres for Land Claimants, Pioneer Dust for Cemetery Records, and Dusty Pages for early Newspaper accounts.

Early issues were mimeographed with a sketch of the fortress at the Fort on the cover. Pages continued with each issue for the year. The third year **Joan Soleheim** was editor and the Trail Breakers cover had a drawing of the Cedar Grist Mill. **Joan** continued as editor a couple of years with the Grand House and Slocum house on the cover. Volumes 6 & 7 had

the Old Train Depot and Providence Academy with **Maxine Inman** as editor. **Janet Strode** took over as the next editor with the Wagon Train on those issues followed by **Evelyn Maloney** as editor. **Barbara (Mrs. John) Baker** was an editor during this time also. For issue 11, **Dee Crouch** of Camas designed the cover we presently use and **Peggy Roberts** became editor for a couple of years. The Print Committee was editor for issue 16 and the next years **Jane Germann** was editor. Issues 26 & 27 had **Peggy Winston** as editor again (**Peggy** had married and become **Winston** instead of **Roberts**). **Marilyn Fitze** took over for over for volumes 28-32. **Marilyn** came down with an illness and **Diana Cruz** and **Jane Germann** stepped in to help out. They became joint editors for issues 34 & 35. Issue 35 it was voted to do an annual rather than quarterly. Issues 36 to the present, **Jane Germann** continues as editor.

CCGS got a printing press. **Kitty Oman** is waiting for a printed sheet while **Rose Marie Harshman** checks to make sure things are running smoothly.

The print committee chairmen usually varied between **Rose Marie Harshman**, **Kitty Oman**, and **Bertha Krause**.

**Mildred and Herman Piontek** were often called upon to help and are shown below:

At first  
the  
press  
was  
kept in  
**Rose  
Marie's**  
home.

Then it was moved to **Bertha's** home. They printed many books, among most of the books published by CCGS. The red Pioneer Books were printed by the committee and then taken to a binder near Salem for finishing and binding, producing a quality book. CCGS volunteers helped to edit the book, form the index by individually using index cards to write the name and page number for each name, print the pages, check the pages for smudges and erase them. The chores were numerous.

**Bertha, Mildred, maybe Geri Gilman, and Rose Marie** discuss the days events while assembling one of the pioneer books.

Here  
**Johnny**  
helps his  
grandmother  
**Rose Marie**  
with  
indexing.

Marriage records were abstracted and

compiled into books. Federal Census Records for Clark County were brought up to the most recent released. Other miscellaneous county records were printed. The money produced by the print shop was the main source of money for CCGS.

The print machine was moved to a couple of commercial locations and the *Trail Breakers* continued to be printed along with some personal books, but it became more cost effective to make photocopies of the *Trail Breakers*. Finally the *Trail Breakers* went to an annual and electronic.

**Jane** and **Bertha** check over papers.

## *Heritage Societies in Clark County:*

We are so blessed to have many societies to help with finding and filling out our family trees. First, check out websites. Sometimes, we older people forget to start with the obvious. Some of these websites are fantastic, some are under construction, and some may have not begun one. If you are traveling, call ahead of time to check about a visit that will fit your schedule. Some will facilitate your desires.

One of the best websites! The CCGS used to rent a space in CCHS until they wanted to enlarge. They have a great collection of township maps for the county, directories, and some individual histories. It is great to visit and see what's on display. They also have some books for sale that are of local interest.

This national site has a free e-book, *A History of Nineteenth Century Vancouver Barracks through 25 objects*. They used to have a library that was on-line with the Fort Vancouver Regional Library which is how I found out about it. They have some early history books of the Fort and also of the Barracks that may be looked at on site. Their gift shop has books of local interest. Unfortunately, original records are at the archives in Victoria, British Columbia. If you visit this site, you can be transported back in time to the time when it was English controlled and the American's coming across the plains were met with courtesy – as long as they settled south of the river. It is a great place for children with many hands on things to do.

### **LDS CHURCHES** (*East, West, and North*)

We are lucky enough to have three local family history centers. They all carry the basics, but the East Stake has some very special collections that would be helpful for Clark County researchers.

The Washington State birth (1907-1954) and death (1907-1979) records are microfilm copies of the originals and are full of information. They also have indexes for Idaho death, Washington birth & death, Oregon death & marriage, California death records and some Idaho Death Certificates.

Under US Censuses, they have lists of censuses from 1790 to 1930. Under Canadian Census they have 1841 thru 1992, and these may change as censuses are released. Sometimes a different filming will be better or, because they differ, missing pages of one filming may be picked up in another filming.

Special Collections include the old Ancestral Family Group records, LDS church census records 1914-1935, and US census records for 1790, 1800, 1810, & 1850 (some places and years for other census), Land Ownership Maps of the late 1800s and early 1900s, and Old Scottish Church Records.

Of course, they have links to hundreds of websites. But they also have some Premium Websites available for use at the FHC only. You can find a list at [Familysearch.org/learn/](http://Familysearch.org/learn/)

The list may vary for each Family History Center:

*19<sup>th</sup> Century British Library Newspaper Archive*

# LA CENTER HISTORICAL MUSEUM

Written by Barbara Barnhart, President and head of La Center Historical Museum

[www.thelacentermuseum.org](http://www.thelacentermuseum.org) contact: on the web by direct e-mail

Located at 410 W. 5th St. in La Center, WA, the La Center-Ridgefield Museum is usually open on the first and third Saturdays. Call Barbara at 360.263.6609 for more information.

The La Center Historical Museum has two special galleries: The Loggers Gallery and The Sternwheeler Gallery. Had not **John Timmen** or **Captain Weir** arrived in the La Center area in the mid 1870's La Center may not have emerged as the logging and commercial center it did become. **John H. Timmen** who platted the town in 1875 sold property to **Capt. Weir** who built the first home in the town and established a trading post on the water's edge. French trappers who hunted in the area sent their peltry via sternwheeler to the Portland markets after **Captain Weir** initiated sternwheeler transportation on the East Fork of the Lewis River. The early settlers who cleared their homesteads to establish farms were joined by loggers who came to work cutting the timber for local and distant markets. Flumes were built in the surrounding hills to transport logs, railroad ties and cord wood to the water's edge for transportation to Portland markets. It is said that La Center was the largest producer of railroad ties on the West Coast.

**Captain William Weir** navigated many a steamboat to La Center and followed the Lewis River high into the hills beyond La Center in high water times. The Sternwheelers arrived daily from Portland to bring visitors and to take back farm produce, poultry, dairy products and peltry. The town grew quickly. A Post Office was established near the trading post. Hotels, boarding houses, saloons, restaurants, mercantiles, an ice cream parlor, a blacksmith, livery stable and other services sprouted up quickly. Old Main Street started right at the water's edge of the East Fork of the Lewis River and spread north to the present day 4<sup>th</sup> Street.

**The Loggers Gallery** has a table top model of the steam donkey which revolutionized the logging industry. Photos of logging operations line the walls of the gallery. **Nicholas Rashford**, La Center's first Mayor and co-owner of several mills, invented a unique handle for a crosscut saw. A photo and copy of the patent hang in this gallery. Old photographs and newspaper clippings are available as sources of information about these early days of logging. An interactive map with the locations of the many La Center area sawmills is being planned for early 2015.

**The Sternwheeler Gallery** showcases bits and pieces of the remains of *The Leona* which burned and sank on the south bank of the East Fork of the Lewis River while being repaired at La Center's dockside. The "bones" of the vessel can be seen from Timmen's Landing on low water days in August. The Sternwheeler Gallery has photos of the many steamboats that frequented La Center at Timmen's Landing where passengers debarked and freight was handled. A model of the sternwheeler La Center at the landing is on exhibit from the **Colf Family Collection**. Files of information on sternwheelers are available including a copy of **Fritz Timmen's** hardbound Blow for the Landing and La Center historian **Janice Fillman's** informative chart listing twenty-eight vessels titled "East Fork and North Fork Lewis River Steamships."

**Holdings & Research Documents** at the Museum:

# Cowley Family History

As written by Lloyd Llewelyn Cowley in March 1978 (submitted by LCMA)

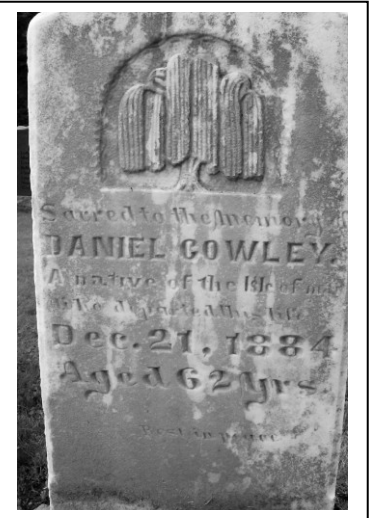

David Cowley

**Daniel Cowley**, born 1814 in the Isle of Man, which is located in the Irish Sea, ran away from home when he was 14 and went to sea, never to return home. He was the youngest son of a large family. After sailing the sea for 20 years, he deserted ship in the St. Lawrence River in the fall of 1849. During this time he made two or three trips around the world and several times around Cape Horn, South America. He also went through three mutinies at sea but always stayed with the officers and came out on the winning side. At 34, when he deserted ship, he was First Officer, next in command to the Captain.

After leaving ship, he made his way westward to Chicago where he wintered. In the spring of 1850, he bought a saddle horse and pack horse and headed west alone, finally arriving in the Sacramento valley. On the way he encountered Indians many times. Once while traveling a ridge in the prairies, he stopped to look around, when out of the tall grass arose a band of Indians braves who

surrounded him. He convinced them he was alone and not a scout, so they let him go. Another time he was out of water. It had been three days since the horses had any water and his canteens had long been empty. Traveling the ridges so he could better see a clump of willows or anything that would indicate a water hole, he saw in the gathering darkness a large campfire. This he mistook as a wagon train as Indians usually built only small fires. He had to have water. As he drew closer, he saw it was a large encampment of Indians. Several tribes had gathered and they were on the War Path, as the braves were all painted. Too late to turn back, now, so he rode up to the fire and dismounted, leaving his pistols and everything on the horses, and sat down by the fire. Soon a crowd was around him and he motioned to them he was hungry. Soon some squaws brought him water and the best venison stew he had ever eaten. A couple of braves led his horses away, which he never expected to see again. There by the fire, he lay down and went to sleep, wondering if he would ever see daylight again, or if he would lose his scalp during the night. Early in the morning, he was aroused by the squaws kindling the fire and later bringing him something to eat. The old Chief and some braves came out and there was some communication by sign language. This was followed by about 50 braves riding up with his two horses. Everything on the horses was as he had left them the night before. Nothing had been taken; even his guns were there. He mounted and they rode hard until about 2:00 in the afternoon, when the leader stopped and pointed to a high peak in the distance. With his hand, he

motioned to keep to the right (or north) of the mountain. They waved and turned back, having take him safely past any roving bands of their encampment.

## North Clark Historical Museum

Information submitted by Museum Coordinator, **Roberta Emerick**:  
[fremerick2@gmail.com](mailto:fremerick2@gmail.com) Phone: 360-263-4429.

Located at: 21416 NE 399th St., Amboy, WA, Clark County, SW Washington. The facility is handicap friendly with entrances to the main floor and basement. On-site contact/messaging phone: 360-247-5800. More information at: [lewisriver.com-North Clark Historical Museum](http://lewisriver.com-North Clark Historical Museum). Mailing address: NCH Museum, P.O. box 296, Amboy, WA 98601. Hours of operation: Saturdays, noon to 4 p.m. Visitations, special events and weddings scheduled upon availability.

Formerly the Amboy United Brethren Church/ **Dora Young** Chapel built circa 1910, the North Clark Historical Museum is listed on the Clark County Heritage Register (1996). It received the Community Pride Design Award (2000), was recognized by the State of Washington Sesquicentennial 150th Anniversary of the creation of Washington Territory (2003), the Washington State Department of Archaeology and Historic Preservation (2008), and the National Register of Historic Places (2008).

This museum is a volunteer non-profit organization, formed in 1988 to celebrate the Washington State Centennial (1989). At the culmination of over five years of fundraising pursuits (1993), payments were completed on the property contract consisting of three lots. The **Amboy Territorial Community Park**, with seventeen developed acres, adjoins the museum property to the west. An annual event, **Territorial Days**, takes place the second weekend of July.

It took a total of twelve years to complete the project which included working with an architect and structural engineer, contractors, completing the permit process and "sweat equity". Deep appreciation is given to the **Colf Family Foundation** for their dedicated support. Museum doors opened for the public on June 24, 2000. The complete renovation involved replacement of strategic beams, redesign of the roof and steeple, design of walkways and landscaping to accommodate handicap accessibility, installation of a geothermal heating system and complete electrical wiring including special lighting throughout the building, restoration of the interior including replacement of the flooring in the sanctuary and annex, leveling the full basement concrete floor to apply carpeting, upgrading two restrooms and creating a licensed kitchen. An **Honors Wall** in the foyer gives credit to those who gave initial support to the project. Continued support includes multiple grants, more in-kind donations, endowments and Honored Donors. Annual funding for maintenance and development is garnered by active memberships, donations, rentals and various fundraising activities.

The NCH Museum houses a broad range of archival information including history of the

landmark church and the renovation to become a museum with a focus on **Native American Culture, Pioneer Heritage, Logging at the Turn of the Century and The Yacolt Burn** (a devastating fire that consumed 238,920 acres of forest in 1902).

Secondary focus centers around science, including the eruption of **Mt. St. Helens**, and providing a venue for local artists to share their work and encouraging musicians, amateur and professional, through a monthly **First Friday Music**

**Open Mic**. A Community Celebration **Honoring Veterans** is co-hosted by the NCH Museum and Mt. Valley Grange, at the grange, during November. An Annual Membership Meeting in February includes a **Silent Auction and Grand Old Auction** of donated items. An **Annual Quilt Show**, held the last weekend of March, showcases the historical and contemporary art of quilting.

The extensive archival library continues to grow with more information, reference books and photographs donated by local residents. A **Spring and Fall Historians Meeting** encourages members and friends to participate in collecting local history. Special "**Family Files**" allow family members to share stories and photographs. Other reference binders gather information on towns and cities north of the Lewis River that played a part in developing the North Clark County area. This includes LaCenter, View, Fargher Lake, Yacolt, Amboy, Lewisville, Etna and other populated sites.

Interior glass cabinets display a wide variety of

artifacts including the original lantern from the steamboat "**Masco**" which plied the Lewis River in the mid 1800's. Working spinning wheels, a pedal-powered Singer sewing machine, an Edison gramophone and a pump organ are located on stage. A piano on the main floor along with an upright hand-turned record player are there for visitors to enjoy. The original mailboxes from the **Amboy Post Office** (est. 1886) and sorting table from the **LaCenter Post Office** are on display. A replica of a working sawmill, three photo murals from the **Twin Falls Logging Company** (1916), an oxen yoke that came over the Oregon Trail (1852) all embrace local history.

A variety of maps which include Clarke (a misspelled clerical error) County in 1888 and another,

1910 voting precinct map, are a big help to researchers helping to pinpoint family properties. A special exhibit entitled "**Fire and the Seasonal Round**" highlights Native American trails. A comprehensive set of county records, dating back to the late 1800's, are available for research. Books are also available with histories of **Clark County Pioneers**, the **McClellan Trail** and **Clark County Veterans**.

Exterior exhibits include a barn, located on the east lot, designed around a storage container with three attached display extensions and a full loft. The structure is used for storage and housing horse-drawn farming equipment, a variety of vintage tools, logging artifacts and a blacksmith shop.

Informational signage has been placed throughout the exhibits. A large steam-powered donkey, once owned by **Nick Rashford Logging** located on Cedar Creek near Amboy, silhouettes the skyline behind the barn and a windmill is in

constant motion beside the barn. The **Wise** Property (one-half acre), located east of the display/storage barn, was purchased in 2007. The existing cottage serves as a caretaker residence and the adjoining shop is being developed for future museum exhibits. Other constructed out-buildings contain maintenance equipment.

The west lot showcases the **Jorgenson steam-driven sawmill** engine, formerly located in Yacolt. Another restored steam donkey is positioned next to the mill. *Our exterior exhibits and the old restored church are a delight for photographers and visitors who appreciate the past.*

Credit is given to circuit riding minister, **Dora Young**, for bringing parishioners together to build the church. The Amboy United Brethren Church was dedicated June 1, 1910. Families traveled by

horse and buggy to attend church services. In the 30's, with the availability of gas-powered vehicles, increased church membership led to raising the building in 1936 and adding a full basement with indoor plumbing. By the year 1966, church membership became fragmented because of the establishment of so many other churches throughout the area. The building needed extensive repairs, well beyond the resources of the remaining congregation, so the property went into private ownership. Today, the building is considered our greatest artifact!

**S. P. MARSH**— This leading citizen of

Vancouver, Washington, was born in Ohio in 1826. At Cleveland he received his education and learned the trade of a blacksmith. At the age of twenty-four the stories of fabulous wealth on the Pacific, and an invitation

from a special friend, started him across the continent for Oregon. He was in the great emigration of 1850, when it is said one hundred and eighty thousand persons were on the plains. Heavy luck struck his party on the Platte. Not far out they were surrounded by a thousand Pawnee Indians, and were given ten minutes to surrender all they had. They had a captain who is described as "not afraid of the devil." He asked the company if they would fight or give up. They replied they would fight; and he therewith gave the Indians peremptory notice to leave within five minutes; and fifty leveled rifles enforced his demand. The Indians began to whimper and beg for "muck a muck,"—a sure sign that they were cowed. A second order only was needed to send them flying.

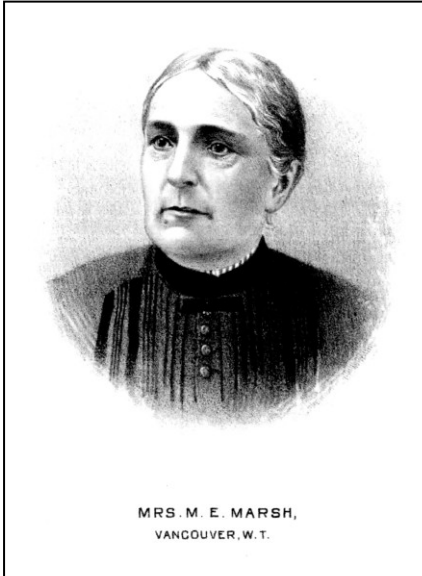

On the Upper Platte the scourge of cholera broke out; and **Mr. Marsh** fell under the ravages of the disease. His case was approaching the last stages, — the ice water;

and the terrible pains just before the fatal cramping were beginning. Lying in his tent, and within reach of his chest of medicines, the suffering and well-nigh dying man thought only of escaping his tortures, and, finding a phial of laudanum, drained the glass, and upon this; minded by some instinct, drank a half pint of brandy. The two powerful poisons neutralized each other, their effect allowing his vital powers to rally; and he recovered. This scourge was frightful on the plains. Mr. Marsh counted eighteen hundred graves by the roadside, and then quit enumeration long before the whole number was passed. One pitiful sight was that of a man crazed with grief starting on the journey home eight hundred miles with the dead body of his wife.

Not far out from Fort Hall occurred as sanguinary an incident as has ever been recorded. The wife of one of the emigrants started ahead with his team, their two children being also in the wagon. As she reached the stream, a short distance from the train, two Indians came from the roadside and asked her for food. She refused them. One produced his knife, and drew the back of it across the throat of one of the children as a threat. The mother seized an axe, and, without a moment's hesitation, split open the head of the savage. The husband, coming up at this time, drew his rifle and with a true aim dropped the other Indian to the earth. Resulting from this summary work was an attack upon the train by the Indians at Powder river, in which one white man, a **Mr. Fisher**, was killed.

Arriving at Portland, **Mr. Marsh** engaged in blacksmithing, hut after a year found

employment as engineer on the steamers of the Pacific Mail Company on the route between Portland and San Francisco. Two years more were spent as engineer on the steamer *Willamette*, plying between Portland and Astoria. At the end of this time the *Willamette*, a river steamer, was taken to San Francisco, and on the ocean was overtaken by a heavy northwester, which drove her eleven miles an hour without a stroke of the wheel;

MRS. M. E. MARSH,  
VANCOUVER, W. T.

and the waves were so violent as to necessitate cutting away the guards. Reaching Benicia, a year was passed on the Sacramento.

In 1853 **Mr. Marsh** returned to Oregon, and in 1856 went East, there

marrying **Miss Elizabeth Strong** of Ohio, a

young lady of rare attractions. They have reared a family of six children, two of whom are deceased. In 1856 Mr. Marsh accepted employment as blacksmith at Fort Vancouver, and was there during the exciting times of **General Harney's** difficulty with the Hudson's Bay Company on San Juan Island. As a pioneer, the gentleman of whom we write built the first blacksmith shop in Portland, Oregon, and in Vancouver, Washington Territory. Since 1860 he has been living in the civil quarters of the latter city, and has adopted the plan of erecting buildings to induce business and to enlarge the place. He has thus put up some sixteen structures, one of which is the theater, which cost some seven thousand dollars. By this policy he has done very much for the city.

**Mr. Marsh** is not a politician, and has ever refused all entanglements in official positions; yet he consented to serve some nine years on the city council. His liberal spirit is worthy of all commendation. His shipment of twenty-nine tons of iron *via* Cape Horn in 1856, for the sake of supplying at low price an article needed in every blacksmith shop, and from which he received but small profit, is an example of his unselfish business methods.

### Social Matters.

On the 5<sup>th</sup> inst. I left town for the purpose of visiting some schools in the country. I traveled on foot, and being blessed with plenty of sole surface was enabled to navigate with a fair degree of speed. I had staired for Fourth Plain, but when about half way there found a crazy little frame school-house by the wayside, where the curling smoke from the chimney indicated that a school was in session there. I went in – found twelve bright-eyed urchins busily engage with their studies, and presided over by **Miss Ida Hurt** of Brush Prairie. The school was very quiet, and the interest and mental activity manifested were greater than are generally found in our schools. Miss Hurt is quite young, has had but little experience in the work; but her success thus far goes to prove her well calculated for the pursuit she has justly chosen. But I pressed on – and just as the sun had reached the zenith I opened the gate in front of the resident of **Wm. Douthit**, and soon was comfortably seated before a blazing fire within. Dinner was announced and, on invitation, the writer was soon seated by the table and partook with a liberal hand. **Mr. Douthit** is an ardent friend of good schools, and having several neighbors who cherish similar views upon this subject, the cause of education is not likely to be neglected in that neighborhood.

I again renewed my journey and after about an hour's travel arrived at the school house on Fourth Plain. This is a large frame and commodious building, and well adapted to the purpose for which it was built. It is located at the edge of the green timber of the west side of the plain. From here the cascades are in full view. The cragged sides, the deep ravines, the dark lines of dense forests that mark the course of winding steams and characterize the foot-hills, can be distinctly traced; while those towering peaks clad in the garth of eternal winter render the scenery sublime. Turning from this beautiful view I again enter the school room, and find a striking contrast between it and the one I had visited earlier in the day. Fifty students --- now before me instead of twelve. Seats are over-crowded and then is heart that irregular him consequent upon such a

condition of affairs. There is genuine work upon the part of the greater portion of the scholars, and the teacher is laboring faithfully to do his duty to his school. But he has too many pupils; too many recitations to hear – and the corroding cares and anxieties that such a task involve are leaving their marks upon his countenance. While here, **Mr. Nerton**, a director of the district, came in, and seemed to take a deep interest in the welfare of the school. School closed, and I accompanied **Mr. Elliot**, he teacher, to his home, where a warm and palatable supper was in waiting. Here I remained overnight, and for the kind hospitalities received he writer feels deeply indebted to **Mr. and Mrs. Elliot**.

Morning dawned, but not clear – the elements were disturbed. The rain was battering against the side of the house with fearful force. The wind was making sad havoc among the trees. In short, it was a regular Nebraska jimmy cane, and the writer was very thankful that he was out of the timber. But when 9 o'clock came the storm began to lull, and I again entered the school room. Here I remained till about half past eleven, when I started out on the return with the intention of reaching **Mr. Nerton's** just about noon. I had made a close calculation; for when I arrived there dinning was just ready. After doing ample justice to a wholesome appetite, and a social chat with these kind people, I set out for house and after climbing over many huge logs that the storm had thrown my way, and peddling through mud and water of varying depths, reached in safety the great city of Vancouver. **Thomas J. Dryer**, founder of the *Portland Oregonian*, died last week, 71 years old. He retired from active political life early 20 years ago.

Union county, Oregon, has been granted a judgement for \$1001.50 against **E. S. McComas**, for the value of county warrants illegally issued to himself while acting as county clerk. His property has been attached. Democratic editors in Oregon follow thorny paths, one either side of the mountains, and suffer much persecution from the authorities and reformers.

### The Western Flouring Mills

The Weston Leader gives the following description of the new flouring mills now owned and run by the sons of **Jacob Proebstel** of Fourth Plain, Clarke County, who are now located in Weston Umatilla County, Oregon:

We paid a visit on Thursday last to the mills, and fond them in full operation. Mr. **Geo. Proebstel**, the gentlemanly manager, kindly conducted us through the building and explained the intricate workings of the vast net-work of machinery. The engine was manufactured by Smith Bros., of Portland and is a twenty-inch stroke, and said to be one of the best this side of the mountains. The furnaces beneath the boilers consume a cord of wood per day. The machinery was placed in position by thorough and practical engineer, Mr. **W. F. Richardson**, and has given entire satisfaction. It augurs well for the smoothness of the working, and the attendant advantage in devoting attention exclusively to quality of the flour, when its first movements were so satisfactory. Our attention was drawn to the steady patient tick, tick, tick, as the great stones were being nicked in that "irregular regularity," the perfection of which, though apparently so very trivial, is the grand keystone in manufacture of first-class flour. The building is five stories high, built with the fittest adaption to all the modern improvements in machinery. A first class miller having been secured placed the whole enterprise *cap-a-pie*, in a position to produce a grade of flour second to none, and we feel a local pride and gratification in recording the universal verdict that its quality is above adverse criticism. View the matter *in toto*, were not surprised that \$25,000 had been expended in the undertaking. The prospects of a good crop are flattering, and this great necessity in our agricultural midst will be tasked to the fullness of its capacity, and the "Weston" brand of flour be sought for far beyond the circumscribed limited of Umatilla County.

The Walla Walla Watchman says: There is a high bench of land near the Spokane river, lying between the old Antoine Plant place and the mouth of the little Spokane river, that has been occupied by the Indians for the last 20 years. They farm portions of it in a small way, raising potatoes, oats and vegetables. Recently a white man commenced building on a piece of land claimed by an Indian called **Spokane Jim**. The latter notified the white man that that was his claim; but his ownership was disregarded and house building proceeded. Jim and some of his friends razed the structure to the ground. This has caused a little bad feeling on the part of the Indians as well as the whites.

The three principal men who have been the head and front of the circulation of petitions for the removal of **Gen. Howard** have recently had tier petitions accurately defined. One was a dishonest Indian agent placed under arrest by **Gen. Howard** for good cause. Another was a democratic editor now under indictment for defrauding his cousty [country?] by over issue of orders. The other was a local writer on a newspaper, now under arrest as a deserter from the army. What a brilliant array of talent!

About ten days ago, some roughs wantonly fired at a Umatilla Indian near Pilot Rock. The Indian went back to the reservation and reported to the sub-chief. He then came out and informed the settlers that if they wanted to fight, he'd give them the best they had in that line. The settlers told them that they could not be responsible for the doings of renegades and borne thieves, but that they would see them punished and her the matter rests for the present.

#### Local.

The Election. – Monday's election for Road Supervisor of Vancouver, resulted in the re-election of **Patrick O'Leary**, without opposition. Only 57 votes were cast, 56 for **O'Leary**.

More Gold. -- Several Vancouver parties have been out on Salmon creek prospecting for gold in placer washings. No report yet of a big find, although "colors" are plenty most anywhere.

Mules. – **Capt. Adams**, Depot Quartermaster at Fort Vancouver, returned form Rosefurg Monday afternoon, bringing with him a numer of mules, purchased by the government for general service.

Theatre. – The performance by Ward's Troup Saturday evening at Brant's hall was very fine in all respects, the occasion being the benefit of **Carrie Clarke Ward** and Miss **Emma Heath**. The attendance was hardly as great as the performance deserved.

Church Sociable. – The ladies of St. Luke's Church will hold a sociable at the house of **Mrs. Whiney** on Tuesday evening next. Good music is promised for the occasion.

The contributions will be devoted to repairing the school room and fitting up a music room.

[page 3, col. 2}]

New School Books. – Dr. D. Wall, agent for the exchange of school books, now has all the old books in, and will be able to complete the exchanged next week, as all the new books will probably be here this week. Dr. Wall states that the exchange is a work of no small magnitude, as it takes \$,500 in new books to exchange for the old books in Clarke county.

A Bonanza. – “Out of abundance of the heart the mouth speaketh,” or words to that effect, was what prompted **Cameron**, the steward of the Vancouver, when he sent that box of garden truck to our house on Monday. Fourteen different kinds of vegetables, and not a very good season, either. **Cameron** has opened a small store for the sale of vegetables, etc., on Main street, opposite **Hazard’s** which he keeps well stocked. Give him a call.

Nearly Finished. – The little stern wheel now in process of construction at **Imon’s** mill, near Wind river, is being rapidly hurried forward. She contains the engines formerly used to propel the *Onward*, and will be commanded by **Captain John Darragh**. In the fruit season such a boat is a great public benefit, and we are confident that she will be a good paying piece of property. There is plenty for such a boast to do in the local trade between the Cascades and the Dalles.

Burned Out. – Last Tuesday a farm house on Fourth Plain, belonging to **Mrs. Wise** of Vancouver, occupied by **Patrick Crogan**, took fire from the chimney and was entirely destroyed. **Crogan** and his wife were at the time in the field, planting, and the children about the house. They saved only a little bedding, and that was all they had left of their outfit. One of the neighbors, **Owen Mulligan**, took their affairs in hand, and after two days’ work in town gathered in for them \$41 cash and five sacks of flour, with which the unfortunate family can commence the battle of the world anew. **Crogan** only came to this country last fall.

Tired of It. – Reckless riding in our streets has become so common of late that the more staid and slow-going ones have become tired of it. Children are frequently called to cross the street. Ladies sometimes pass along our sidewalks and these dashing raids from one place to another, with a sudden halt and then a Gilpin dash, then the horse made to spin around on the street crossing like a top, when a lady or perhaps a little child is attempting to cross, is anything but pleasant, and we are glad to see that our city marshal has been taking notice of this conduct, and arrested one of the fast gentleman the other day. There are others who are guilty of the same offense, and we advise him to look after them a little, too.

#### School Matters.

After remaining in Vancouver a few days, during which time the weather was clear and pleasant, I again

prepared to set out – this time to the northern part of the county. I left on Saturday morning. The weather had again changed, and though the rain was pouring down without stint.

I succeeded in hailing the “Vancouver” at Lambert’s landing, where I got aboard, comfortably sheltered from the storm, and borne down the Columbia and up the Willamette with all the ease and celerity no characteristic of that commodious little steamer. When within sight of Portland I was transferred to the *Latona*, that beautiful and popular board on the Lewis river trade. Here I found sever old friends and acquaintances. I had hardly stepped aboard when the voice from away back at the engine cried out, “there comes that hungry man.” It was Crawford, the engineer, with whom I had often dined. The purses proved to be **John Gaither**, recently of the firm of **Miller and Gaither** at La Center. The man at the wheel was none other than **Capt. Wier** of *Hydra* fame; and the man who superintended the culinary part was recognized as that happy and jovial bachelor **Gus Graves**. We reached La Center at 4 o’clock P.M. The new wharf and warehouse has added much to the appearance of the little town. Here I spent a few minutes at the store of **J. C. Miller**, the only dry goods store there, and then proceed to call on my old host and hostess **Mr. and Mrs. McNab**. Here I met with a lady friend, **Mrs. Murray** of Cedar creek, and with these genial and benevolent people the evening hours were pleasantly passed. Sunday morning came, and though the weather was not pleasant, I set out to visit other friends. In my circuit I called at the home of **Michael Kane, F. P. Saunders, Thomas Carroll, J. D. Banner, John K. Gaither** and **John H. Timmen**. At the latter place I remained over night.

School matter in this neighborhood have been languishing during the past year, but there are bright prospects of an early change for the better. They have a fine new frame school house nearly completed, that is admirably adapted to the purpose for which it was built, and a credit to its projectors. The people of a new district, recently cut off from this one, have gone to work with an energy and will worthy of the cause, and have a school building nearly completed and ready for school.

On Monday morning I started for the Eaton settlement, which the intention of returning from there direct to Vancouver. Through the kindness of my friend **Ira Spencer**, I was furnished with a house to ride there. The rain poured down all day without ceasing, and about 4 o’clock in the afternoon, wet and hungry, I arrived at the residence of **J. G. Downs**. But supper was soon served, and a warm fire soon made me forget the unpleasant journey of the day; I had been there before, and felt at home. On the following morning I concluded to take my back track. The heavy rains had swollen the streams to a fearful height and I concluded if I had to travel by water I would rather go by steamer than on foot. So I started for La Center, but by a shorter route than the one on which I had traveled the day previous. Between **John Eaton’s**

and **G. Graham's** place I found it very difficult to make my way, even on foot. The storm of the 6<sup>th</sup> ult. had filled the road for some distance with huge trees, in several places three deep. Here I found **Messrs. Graham, Burnham, Lewis, Jos. Eaton, John Eaton, McBride, Walden, Abby** and others with saws, axes, &c., trying to clear the way. It seemed to me a Herculean task, almost equal to running a public school. But I returned to La Center that evening and on the following morning was abroad of the *Latona* and on my way to Vancouver.

Since my return I have visited seven schools. On the 17<sup>th</sup> ult. schools No. 3 and 8 were visited. The former is taught by **J. C. Clark**, who seems to be laboring faithfully to do his duty. The school is very small however, and as it costs just as much to teach five or six scholars as it does twenty or thirty, it seems a pity that more could not be gathering in one school. The one in district 8 is taught by **Miss Carrie Brooks**. I found about a dozen scholars in this school, and apparently under good discipline. I have since visited the school in district No. 48, taught by **James Anderson**. Here I found fourteen scholars. The school room was rendered a little inconvenient. He was preparing for an exhibition, and for that purpose had erected a platform which took up considerable space. James is a conscientious worker, and has evidently been trying to do his duty. While out among the schools I have met many warm friends of education; and from the encouragement already received I confidently look for considerable progress within the next year in the work of building up our schools. R [**Mr. Robb**]

**J.O. Smith** continues to furnish the best saddle horses and neatest rigs in Clarke County.

If thoes who sent sewing machines to the Pacific Hotel 4 weeks ago to be repaired, will send me their address, I will repair them now, as I have one week's time for work in Vancouver. I could not stay more than three weeks last time, as I do repairs of five agencies. If there is a machine in Vancouver that I repaired within one year, working badly, let me know and I will tend to it free of charge. **J. Dunn**, Pacific Hotel.

order.

Inquest Held. – **Corner Cook**, of Portland, held the inquest at the head of Government Island last Saturday. After examining the body, which, from its advanced condition of decomposition, must have been in the water for some days, returned the following verdict:

We, the jury, find that the deceased (who is evidently an Indian woman, judging from the token on her person.) came to her death by accidental drowning. **Geo. H. Ward, S. H. Feister, John Burk, H. Ranford, G. H. Clarke, C. A. Smith.**

The remains were wrapped in an old calico dress with no under-clothing. On each wrist was found a string of beads and bright brass bracelets. A few cartridge shells were found in the bosom of her dress, which she had probably picked up. After holding the inquest a grave was dug near where the woman had been found floating, the remains were placed in a plain coffin and buried. The last resting place of the unknown was marked by a wood board, placed at the head and foot of the grave.

Notices. I hereby notify all persons not to trust my son **John Ough**, as I will not pay any debts he may contract. **R. OUGH**. Washougal, W. T., April 3d 1879

Several out of the area stories.

An Incident. – It was on Tuesday morning, says the *Dalles Mountaineer*, an hour or two before the funeral services of **Mrs. Hester Williams**. An old aged Indian known as old Billy came to the window and stood looking in for a few minutes, and turned away. Some one observing him, asked that he might be permitted to come in. He was invited into the room, and went and stood by the coffin. He gazed a few moments upon the lifeless form, when the tears gather in his eyes, trickling down his wrinkled face. weeping, and brushing away the tears with his hands, he silently left the room, as one who mourned the loss of a very dear friend. Billy had often been employed by Mrs. W. to saw wood and for other small jobs, and her proverbial kindness to all around her had set its seal upon the heart of the old Indian, and won this tribute of affection to her memory.

Name Changed. – The designation of the military station here has been changed from "Fort Vancouver" to "Vancouver Barracks." We suppose the reasons for the changed were good and weighty ones, but it will be a long time before the people in this vicinity who have spoken of "Fort" Vancouver for nearly thirty years will make up their minds to adapt themselves to the new order of things and say "the barracks." The military station here dates from about 1848, when the post was designated as "Columbia Barracks," subsequently, about 1853, changed to Fort Vancouver, which latter name it has been until now.

Suicide. – The East Portland Call gives the following account of the death of a lady who lived opposite Vancouver on the Columbia slough. On Friday last **Miss Susan Jones**, aged about 24 years, and residing about five miles north of East Portland, on the slough, committed suicide by jumping into a cistern. The deceased for some time past has shown signs of dementia. ... her untimely end was probably hastened by her grief at the absence of a little boy, to whom she was greatly attached, who was taken away from the house by her step-mother.

**Capt. John Smith**, agent of the Warm Spring Indians of Oregon, was in town on Tuesday, and during a short call at our office gave a glowing account of the civilization of this tribe, now famous as the fast friends of the whites. **Capt. Smith**, who has now been their agent for over fourteen years, has been re-appointed for a term of four years. He had decided to retire, felling the weight of years, but the Indians make such a fuss and plead so hard with him that he will probably remain with them anther term. His work about them has certainly been very efficient.

**To remove.** **John O'Keane** has filed his bonds and qualified as Indian Agent at Tulalip for a term of four years, and is now preparing to remove his family from Vancouver to the reservation. Many people and friends will miss his friendly greetings, but they all wish him well in his new location.

The following preamble and resolutions were adopted by Vancouver Lodge N. 3, I.O.O.F., April 9, 1879: Whereas, Death has removed from our midst, Bro. **George Smith**, a highly honored and respected member of this Lodge and an upright, generous and industrious citizen of this community, therefore be it: Revolved, 1<sup>st</sup>: That we extend to his widow and other members of his bereaved family our sincere sympathy and condolence coupled with the assurance that we, too, have lost one whose presence was ever a pleasure, and

to whom we were bound by fraternal ties as strong as "hooks of steel."

Letter to editor about congress.

A Washington dispatch of Friday, April 18<sup>th</sup>, states that Moses and his Indians have secured a reservation, an agreement having been made that they vacate the lands heretofore occupied by them in this Territory, and accept a reservation set apart for them adjoining the west side of the Colville reservation, in the northeastern portion of this Territory. The proposed reservation is larger than the Yakima, which contains 800,000 acres. Now if the Yakima reservation can be given up to settlement to white, and Wilbur with the rest of the Indians removed to the new reservation, east Washington would be in condition for successful development, capable of supporting an immense agricultural population. It would also largely reduce the number of soldiers necessary to be kept in this department.

[On this page are articles relating to Oregon and the Territory. It was very hard to read.]

**Mrs. J.E. Francis** sailed for San Francisco on the Oregon yesterday.

Three parties are now prospecting the streams of Clarke county for gold.

**J. H. O'Donnell**, of Battle Ground, is already boasting of having new potatoes.

**Attorney I. W. Whalley**, of Portland, interviewed his Vancouver clients on Monday.

**D. R. Fales** came into town on Monday evidence that the waters are surely receding.

The new house built by **J. M. Douthit** opposite the ark is now completed, and occupied by his mother.

It is expected that **W. H. Foster & Co.'s** new ferry boat will make her appearance here about the first of May.

**Hon. Elwood Evans** and **Hon. Geo. Abernathy** were in town a few days ago, on business at the U. S. Land Officers.

**C. H. Whitney** has enclosed his block of ground opposite **G. H. Daniels'** residence with a first premium board fence.

**Fred Dehm**, formerly a resident of Vancouver, is a prominent member of the new brass band organized at the Dalles.

**Dr. Randolph Smith** had a nice quite wedding last week, and we join the general throng in tendering hearty congratulations.

The steamer Vancouver on Tuesday took over to Portland a load of 120,000 hoops for **B. L. Morrison**, to go below on the Oregon.

**Sister Josephs** and another sister from the House of Providence, left yesterday morning for Walla Walla, to be gone for some weeks.

The Oregon City paper says that in a few days the young man **Fletcher**, who swore falsely as to the age of a young lady who lately eloped from Vancouver, will be tried before **Justice Whitlock**.

New diggings are reported to have been discovered near the head of the north fork of Lewis river, which pay 25 cents to 75 cents to the pan. This is something for gold diggers to dream of.

A Walla Walla paper says that **Lieut. Farrow**, of the fighting 21<sup>st</sup> Infantry, is stationed at Umatilla Agency with six men; his object is to protect the redskins from the constant worrying they get from a great many loose characters over in that section. In this he will receive the support of all the decent citizens, who are not very anxious to have their country disgraced by the actions of a set of irresponsible men.

St. Luke's Parish School. – This school will not open until Monday morning next. The principal, Miss Loomis, was on the wrecked Republic, arriving in Vancouver Tuesday morning, minus all her bags, and nearly worn out with the dangers and excitement of the shipwreck. Her many friends extend hearty congratulations for her preservations and return.

[page 3, col. 2:]

Salmon Fishing commenced at Vancouver last week, **Ballerkist** taking the first one on the 15<sup>th</sup>, and he has fished ever since, but the run has not fairly commenced.

Narrow Escape. – As a party of government employees were taking sand from a pit at Burnt Bridge creek on Saturday, the bank caved in. A Private of Co. G, 21<sup>st</sup> Infantry, was in the pit, and came very near being buried alive. His face was badly scraped, and he was bruised some.

Emigrated. – **Dr. J. W. Evans** departed with his family on the Oregon for California yesterday. The doctor lived in Vancouver about six months, and made many friends but he found the locality so distressingly healthy that there was nothing in it for his business. We wish him prosperity wherever he may reside.

A lengthy report of the Wreck of the Steamship Great Republic on the Columbia River Bar. A careless pilot the cause.

[**Capt. Carroll** was unable to see the beacon which usually guided him; **Doig** was directing the course and he wanted one minutes more. The Capt. George Flavel with the tug Brenham went to her assistance followed by other tugs. Passengers escaped with only the clothing they wore

[page3, col. 4]

Hazard**, \$1,400, **Matt Brown**, \$100, and possibly a new billiard table, \$400 more; **Thos. Padden**, \$90; **J. E. Francis**, \$150; **Wm. Stevens**, candies; **Mrs. Wise** one package, **M. J. Maxon**, \$70; **J. A. Dupuis**, 435; **M. Wintler**, \$75; **Sohns & Schuels**, \$75. It is possible some of these good may be saved from the wreck in a damaged condition.

North Fork of Lewis River Items. – Seeing that you invited correspondence from different parts of the country, I hope a few items from this section ay proved interesting to your readers, of which there are a goodly number of the north fork of Lewis river. The first place of importance after leaving Pekin, on the north fork of Lewis river, is the Grange hall near the residence of **John S. Bozarth**. This hall was built in the fall of 1875 by the Lewis River Grange and is 50 feet long by 22 feet wide. The grange still flourishes, and as a natural consequence

the hall is kept in good repair. Here the Lewis River Literary Society holds its meetings, which are generally very well attended. There is a good steamboat landing on the river near the hall. The little steamer Hydra, under command of **Capt. Wier**, now of the Latona, made two trips to near the mouth of Cedar creek, about 14 miles from where the north fork empties into the main Lewis river; and the day is not far in the future when steamboats will make regular trips to this point. There is plenty of room for settlement – good land still remains unoccupied, which can be had for the taking the paying of Land Office fees. There is also thrugh this country very much railroad land which is slowly settling up; and should congress pass a bill fixing a maximum price for those lands at \$2.50 per acre, they would soon be all taken up by actual settler, and the country would be thereby greatly benefitted. There has been some wood chopping done here this winter, and between 500 and 600 cords of wood have been cut, of which about 250 cords are already banked and ready for shipment. This wood is all hard wood, ask and maple, mostly ash. Farther up the river in the neighborhood of the **Davis settlement**, a great many cedar shingles are being got out, there being no less than three different camps. There is also a little prospect of some mining excitement. A ledge has been struck, and some of the quartz taken away for the purpose of assay. I hereby mention this fact to show the outside world that we are not behind the times, even in the matter of striking quartz ledges. There is to be a May Day party and dance at Bratton's on the first of May. More anon. C.

The Portland Standard says Vancouver can boast of one of the finest meat markets in the Territory, and is conducted by **Messrs. A. J. Bean and Co.** **Mr. Bean** is an accommodating gentleman, and by his constant courtesy has won a large and deserving patronage. We wish the arm continued prosperity.

Restaurant. – **Geo. Williams** is now running the restaurant opposite the Pacific hotel, keeping oyster and all the game and good things of the season. The place is fairly fitted up, and he will do his best to please the public in everything wanted. Both front and rear entrance.

[page 3, col. 5.]

The court martial for the trial of **Captain Charles Bendire**, 1<sup>st</sup> Cavalry, upon charges preferred against him by **Lieut. Col. Otis**, 7<sup>th</sup> cavalry, assembled, this morning as the Post Library Rooms. **General Sully** being ill, **General Frank Wheaton** presided. **Major E. C. Mason**, 21<sup>st</sup> Infantry, is Judge Advocate of the court, and **Major L. S. Babbitt**, U.S.A., and ex-**Judge E. D. Shattuck**, of Portland, counsels for defendant. **J. W. Cochran** acts as Stenographer for the court.

The Dayton Chronicle, in speaking of Washington Territory's wealth says: To those unacquainted with the natural resources of the Territory of Washington. It is a difficult task to represent its real wealth. They would believe us guilty of exaggeration, were we to state it: Plain language that fact in the case; but to our people who see these things with their own eyes, it is not so difficult; yet we believe there are many within the limits of our Territory who are not informed of the wealth of their adopted country. The lumber trade and shipping interests in themselves form a great revenue to Washington Territory. It is asserted that this product is worth at least \$4,000,000 annually in gold coin. Besides lumber and coal, the exports of agricultural products and meats are immense. Then take the coal trade and the possible productions of Eastern Washington, and we have a faint conception of our natural wealth. Then conceive, if you can, the additions to this that would follow the further introductions of capital and transportation within our boundaries, and we do not wonder that immigration is safely invited. With all this natural wealth there is nothing to prevent Washington from becoming one of the wealthiest State in the Union, and capitalists much see, at no distant day that their wealth will be safe, if invested in a country whose security is her own intrinsic worth. These facts are plain and need no polished words to demonstrate their truth.

## Trail Breaker Trivia

The *Trail Breakers* used to be pasted up. Articles were either typed or printed out if done with a computer and glued to another piece of paper that had a header and page number. Before computers were regularly use, fancy headlines could be made by rubbing letters onto a line then pasting that into the top of an aritcle. Photos were screened (little dots put into the format of the photo so that the ink would not pool and smear), then placed on the page.

Now it is all done on the computer. We still need to scan photos in and there is a lot of cut and paste – but electronically. There may be several files at first, while the article is being developed. Then they are cut and pasted into one file. The whole issue can be sent electronically and people can download their own copy or just look at it on screen. Of course, our friend the typographical error has not disappeared.

# Index of the Atlas of Clark County Washington 1928

The Copy of the set of maps is available at the  
Clark County Genealogical Society Research Library  
715 Grand Blvd, Vancouver, WA 98661

In bold is the main entry, followed by the page number of the map indexed. This is followed by the township and range, section number and other information. Several names were spelled in various ways, even on the same page, and appear to be the same person; however, since the indexer did not know which was correct, no correction was made to the name. Because the numbers were not listed with zeros in front of them, they are mixed in with the two and three digit numbers. This is the last section of this series.

## One More Book Found for the Combined Indexes

The editor found another book that is full of people who live in our surrounding area, particularly the coast and up to Seattle. The three volumes consist of a historical summary of the very early days in Volume 1, and two volumes which contain biographies of people in the area. The author and his assistant consulted many people to help with this work. From Vancouver was E. E. Beard, Editor and Publisher of the *Columbian*. This set stretches the 1910 date set, but contains many names. The index following contains names to “D” then continues the combined index. The next issue will begin with “H.” Volume one is on Google as a free book. This set is:

**H:C II & III** = Herbert Hunt & Floyd C. Kaylor’s **Washington: West of the Cascades**, The S. J. Clarke Publishing Company, Chicago, Seattle, Tacoma, 1917. Vol. 2 & 3 can be found at the CCGS Library. Google the title for some other choices.

## The Combined Indexes of Several Books in the Columbia River – Willamette Valley Area

Intro and Part one are in Vol. 38 of the Trail Breakers. Reference Librarian from the Multnomah County Library, Baron Schuyler, looked up and e-mailed indexes for those books added to this combined index. Bea Hicks converted the index for Clark's History of the Willamette valley, Oregon, Vol. II. Darla Brock completed the conversion for Vol. III. Jane Germann converted indexes for the Portrait and biographical Record of the Willamette Valley, Oregon and Oregon Bible Records (V.1). They have been combined with the index. A-B will contain only these books, then beginning with "C" the combined index will continue. There may be additional books added next year. Those added this year are C:HWV2 & CHWV3, C:PBWV, and OBR1.

Those books currently available on HeritageQuest, have an **HQ** following the book information. Copies of these books and other listed may be available by film from the LDS Family History Library (**FHL**). Others may need to be requested through your public library. **FVRL** indicates they are available through the Fort Vancouver Regional Library System. **MCL** indicates availability through Multnomah County Library.

Thanks to those of the Clark County Genealogical Society's Research and Preservation team who helped with the indexing by typing data from existing indexes: Bea Hicks, Darla Brock, DeAnn Wilson, Gene Keuchman, Jane Germann, Molly Winterstein, and Sally Morello.
